

## Safety principles.

### Before you start work:

- ✓ Let someone know.
- ✓ Ensure someone else can see and hear you while you work.
- ✓ Ensure both you and others nearby are able to stop the machinery, current, water, et cetera; or able to remove you from danger.
- ✓ Ensure properly maintained safety equipment is nearby.
- ✓ Ensure your immediate environment is stable and as free as possible from complications.

### While you work:

- ✓ Maintain a stable position.
- ✓ Do one thing at a time.
- ✓ Turn it off before moving.

### After you finish:

- ✓ Turn it off.
- ✓ Tidy up.
- ✓ Let someone know.
